Assessment Greetings page

Greetings on behalf of the Arizona Department of Education Career & Technical Education and the University of Arizona

Welcome to the Arizona Department of Education Technical Skill Assessment System. The assessment will measure the knowledge and skills that CTE students have attained in their Career and Technical Education (CTE) program. Congratulations to students on nearing the completion of their CTE program.

Each assessment question is linked to a CTE program standard / measurement criterion that students have studied. The standards have been identified by Arizona business and industry leaders as critical to success in their business. After students have completed the assessment, they will receive immediate feedback on attainment of each standard.

Arizona business and industry leaders in Arizona place great value on student attainment of knowledge and skills. Upon passing the assessment, students will receive a certificate and technical skill transcript from the Arizona Skill Standards Commission to present to their employer.

Results of the assessment will be used to showcase technical skill attainment to the Arizona Legislature and the federal government.
